FALKLANDS, SOUTH GEORGIA & ANTARCTICA

20 NIGHTS | TRIP CODE: HDS21-23

24th OCTOBER - 13th NOVEMBER 2023

PUERTO MADRYN - USHUAIA

This Falkland Islands, South Georgia, and Antarctic Peninsula cruise is an animal-lover's dream come true. The expedition explores one of the last untamed areas on Earth – a land of ruggedly beautiful landscapes and amazingly varied wildlife.

PLEASE NOTE:

All itineraries are for guidance only. Programs may vary depending on ice, weather, and wildlife conditions. Landings are subject to site availabilities, permissions, and environmental concerns per IAATO regulations. Official sailing plans and landing slots are scheduled with IAATO prior to the start of the season, but the expedition leader determines the final plan. Flexibility is paramount for expedition cruises. The average cruising speed for our vessel is 10.5 knots.

YOUR ANTARCTIC CRUISE

M/V HONDIUS - ABOUT THE SHIP

Hondius is the world's first-registered Polar Class 6 passenger vessel, making her among the most structurally fortified and technologically advanced polar cruise ships on the seas. This vessel fully complies with the mandatory requirements of the Polar Code as adopted by the International Maritime Organization (IMO) for safe and environmentally sound ship operation in the polar regions.

Using some of the latest sustainable technology, Hondius employs LED lighting, steam heat, biodegradable paints and lubricants, and flexible power management systems to keep fuel efficiency high and CO2 emissions low. Hondius is also equipped with stabilisers that make her highly suitable for swift, safe, and nimble exploration of Arctic and Antarctic waters.

Hondius offers comfortable accommodation for 170 passengers in six grand suites with balconies, eight junior suites, eight superior cabins, 11 twin deluxe cabins, 14 twin window cabins, 27 twin porthole cabins, two triple porthole cabins, and four quadruple porthole cabins.

One deck of Hondius is reserved for multi-language lectures and presentations in a large observation lounge as well as in a separate lecture room. But while the ship's interiors are cozy and classically conceived in mid-century modern décor, her tough small-scale design enables her to react quickly to moment-by-moment weather changes and wildlife opportunities.

Oceanwide's main focus is always exploration, wildlife, and outdoor activities. For this reason, Hondius carries a powerful fleet of Zodiac boats to guarantee swift and safe transit from ship to shore. She also has two separate gangways for efficient outings as well as an indoor Zodiac boarding area that can also be used for special outdoor activities such as kayaking.

While cruising, Hondius carries 72 crew and staff members, including expedition and hotel staff, all of whom will be at your service during your polar expedition trip. Hondius is equipped with two main engines and can reach a maximum speed of 15 knots.

Happier passengers, healthier polar environment

Not only will the numerous amenities and on-board entertainments help make your Hondius voyage truly memorable, this ship also gives you the peace of mind that comes with choosing one of the most environmentally friendly vessels on the polar seas. Hondius uses LED lighting, steam heating, bio-degradable paints and lubricants, and state-of-the-art power management systems that keep fuel consumption and CO2 levels minimal. This means that when you sail aboard Hondius, you get to enjoy the exotic landscapes and wildlife as much as possible while impacting them as little as possible.

Hotel comfort, expedition class

Please be aware that a small number of cabins may have a partially obstructed view due to the size of the windows and the design requirements of the ship. For example, some windows may be partly obstructed in the lower half by a gangway. The best view is always on the outer deck or the bridge. Hondius offers high-quality accommodation for 170 passengers in six grand suites with balconies (27 square meters, 291 square feet), eight junior suites (19 to 20 square meters, 205 to 215 square feet), eight superior cabins (20 to 21 square meters, 215 to 226 square feet), 11 twin deluxe cabins, (19 to 21 square meters, 205 to 226 square feet), 14 twin window cabins (12 to 14 square meters, 129 to 151 square feet) as well as 27 twin porthole cabins, two triple porthole cabins, and four quadruple porthole cabins that vary in size from 12 to 18 square meters, or 129 to 194 square feet. One deck consists of a large observation lounge and separate lecture room, which are reserved for a wide variety of interactive workshops, exhibitions, and performances particular to Hondius. Though elegantly designed in stylish mid-century modern décor, this vessel holds true to Oceanwide's distinctive cozy and informal atmosphere.

Swift & safe ship-to-shore operations

It is our philosophy to keep sea time short so that we can focus instead on fast, effective access to shore and near-shore activities. To give you the maximum contact with the nature and wildlife you traveled so far to see, we employ a tough fleet of rigid-hull inflatable Zodiac boats that guarantee swift and safe landing operations for the passengers. Hondius has two separate gangways and a sheltered indoor Zodiac boarding area that can also be used for special outdoor activities, such as kayaking.

The fast, flexible, friendly heart of the polar regions

Our top priority is taking advantage of every wildlife and terrain opportunity as it occurs. To keep our itineraries flexible itineraries and our response time rapid, Hondius is equipped with advanced stabilisers and two main engines capable of powering the vessel up to 15 knots. But Hondius sacrifices no warmth to achieve its keen polar edge: You will have 72 crew and staff members (including expedition and hotel staff) at your service while on board, ensuring that what little time you do spend on the ship you will spend comfortably entertained.

Age and nationality

Passengers on a typical voyage range from in their 30s to their 80s, with the majority usually between 45 — 65. Our expeditions attract independent travellers from around the globe who are characterised by a strong interest in exploring remote regions. The camaraderie that develops on board is an important part of the Oceanwide experience, and many passenger groups include several nationalities.

M/V HONDIUS - USEFUL INFORMATION

What to wear

In keeping with the spirit of expedition, dress on board is informal. Bring casual and comfortable clothing for all activities, and keep in mind that much of the scenery can be appreciated from deck — which can be slippery. Bring sturdy shoes with no-slip soles, and make sure your parka is never far away in case one of our crew shouts “Whales!” over the loudspeaker and you have to dash outside in a moment's notice. Opt for layers, as it is comfortably warm aboard the ship though often cold on deck.

How to pay on board

Refreshments and souvenirs will be charged to your cabin. The day before departure you can settle your bill with the hotel manager, paying by credit card (Visa or MasterCard) or cash (euro, or in some cases dollar). We cannot, however, accept checks. Though the prices and standard currency on board is in the euro, other currencies may be accepted at the discretion of the hotel manager, at prevailing rates.

Electric current

The electrical supply aboard ship is 220v, 60Hz. Electrical outlets are standard European with two thick round pins, so some passengers may need a 220v/110v converter.

Gratuities

The customary gratuity to the ship's service personnel is made as a blanket contribution at the end of the voyage and is divided among the crew. Tipping is a personal matter, and the amount you wish to give is at your sole discretion. As a generally accepted guideline, we suggest 8 — 10 euros per passenger per day. It is better for the crew if you give cash.

Non-smoking policy

We have a non-smoking policy inside all our vessels, though you can smoke in certain designated areas. We ask that you please respect the wishes of non-smokers.

Your physical condition

You must be in good overall health and be able to walk several hours per day. The expedition is ship-based and physically not very demanding, but we spend as much time as possible on shore. You are, however, welcome to remain aboard the ship if you prefer. To join most excursions you must be able to get up and down the steep gangway — from the ship to the water level — to board the Zodiacs. Staff will assist you in and out of the boats, and boarding will become progressively easier with practice, but conditions on shore can be slippery and rocky. Remember, you will be traveling in remote areas without access to sophisticated medical facilities, so you must not join this expedition if you have a life-threatening condition or need daily medical treatment.

DAY 4

27th OCTOBER 2023

FALKLAND ISLANDS

ARRIVAL IN THE FALKLANDS ISLANDS FOR TWO DAYS

The Falkland Islands offer an abundance of wildlife that is easily approachable, though caution is always advised. These islands are largely unknown gems, the site of a 1982 war between the UK and Argentina. Not only do various species of bird live here, but chances are great you'll see both Peale's dolphins and Commerson's dolphins in the surrounding waters.

During this segment of the voyage, you may visit the following sites:

Carcass Island: Despite its name, this island is pleasantly rodent-free and hence bounteous with birdlife and many endemic species. Anything from breeding Magellanic penguins and gentoos to numerous waders and passerine birds (including Cobb's wrens and tussock-birds) live here.

Saunders Island: On Saunders Island you can see the black-browed albatross and its sometimes-clumsy landings, along with breeding imperial shags and rockhopper penguins. King penguins, Magellanic penguins, and gentoos are also found here.

FALKLAND ISLANDS

PORT STANLEY - THE SEAT OF FALKLANDS CULTURE

The capital of the Falklands and centre of its culture, Port Stanley has some Victorian-era charm: colourful houses, well-tended gardens, and English-style pubs are all to be found here. You can also see several century-old clipper ships nearby, silent witnesses to the hardships of 19th century sailors. The small but interesting museum is also worth a visit, covering the early days of settlement up to the Falklands War.

Approximately 2,100 people live in Port Stanley. Admission to the museum is included.

AT SEA

ONCE MORE TO THE SEA TOWARDS SOUTH GEORGIA

En route to South Georgia, you now cross the Antarctic Convergence. The temperature cools considerably within the space of a few hours, and nutritious water rises to the surface of the sea due to colliding water columns. This phenomenon attracts a multitude of seabirds near the ship, including several species of albatross, shearwaters, petrels, prions, and skuas.

31st OCTOBER 2023

SOUTH GEORGIA

ARRIVAL IN SOUTH GEORGIA JOURNEY FOR 4 DAYS

Today you arrive at the first South Georgia activity site. Please keep in mind that weather conditions in this area can be challenging, largely dictating the program.

Over the next several days, you have a chance to visit the following sites:

Prion Island – This location is closed during the early part of the wandering albatross breeding season (November 20 – January 7). From January on, the breeding adults have found their partners and are sitting on eggs or nursing their chicks. Enjoy witnessing the gentle nature of these animals, which possess the largest wingspan of any bird in the world.

Fortuna Bay – A beautiful outwash plain from Fortuna Glacier is home to a large number of king penguins and seals. Here you may also have the chance to follow the final leg of Shackleton’s route to the abandoned whaling village of Stromness. This path cuts across the mountain pass beyond Shackleton’s Waterfall, and as the terrain is partly swampy, be prepared to cross a few small streams.

DAY 9 - 11

1st - 3rd NOVEMBER 2023

SOUTH GEORGIA

CONTINUE TO EXPLORE SOUTH GEORGIA

Salisbury Plain, St. Andrews Bay, Gold Harbour – These sites not only house the three largest king penguin colonies in South Georgia, they're also three of the world's largest breeding beaches for Antarctic fur seals. Literally millions breed on South Georgia during December and January. Only during the mid-season do they peak in their breeding cycle. There will be some young adult Elephant seals as well as this seasons 'Weaner's; the young Elephant Seals that have been left to fend for themselves.

Watch your step and stay cool when walking the beaches during this time. Grytviken – In this abandoned whaling station, king penguins walk the streets and elephant seals lie around like they own the place – because they basically do. Here you might be able to see the South Georgia Museum as well as Shackleton's grave.

In the afternoon of day 10 and depending on the conditions, we will start sailing southwards in the direction of the South Orkney Islands.

 **AT SEA**

SOUTHWARD BOUND TOWARDS THE ANTARCTIC PENINSULA

There may be sea ice on this route, and at the edge of the ice some south polar skuas and snow petrels could join the other seabirds trailing the vessel south.

 **Meals Included:** Breakfast, Lunch & Dinner.

DAY 13

5th NOVEMBER 2023

 **AT SEA**

THE SCENIC VISTAS OF THE SOUTH ORKNEY ISLANDS

Depending on the conditions, you might visit Orcadas Base, an Argentine scientific station on Laurie Island in the South Orkney archipelago. The personnel here will happily show you their facility, where you can enjoy expansive views of the surrounding glaciers. If a visit isn't possible, you may instead land in Coronation Island's Shingle Cove.

DAY 15 - 18

7th - 10th NOVEMBER 2023

ANTARCTICA

FOUR DAYS EXPLORING THE AWE-INSPIRING ANTARCTIC PENINSULA

If the ice conditions permit, you now sail into the Weddell Sea. Here colossal tabular icebergs herald your arrival to the eastern side of the Antarctic Peninsula. Paulet Island, with its large population of Adélie penguins, is a possible stop. You might also visit Brown Bluff, located in the ice-clogged Antarctic Sound, where you could get the chance to set foot on the Antarctic Continent itself.

If conditions aren't favourable to enter the Weddell Sea from the east, the ship will set course for Elephant Island and head into the Bransfield Strait, between the South Shetland Islands and the Antarctic Peninsula. Here you can attempt to access the Antarctic Sound from the northwest.

The breathtaking scenery continues in the Bransfield Strait and, if conditions allow further South in the Gerlache Strait. Conditions on the Drake Passage determine the exact time of departure.
