MAP - M/C GALAXY SIRIUS - ITINERARY A

4 NIGHTS / 5 DAYS

ITINERARY 5 DAY "A"

YOUR DETAILED DAY BY DAY ITINERARY

DAY 1 - TUESDAY

DATE TBC

GALAPAGOS

FLIGHT TO SAN CRISTOBAL ISLAND & VISIT LOBOS ISLAND

Transfer to the airport for a 2 hour 30 minute flight to Baltra Island in the Galapagos. Upon arrival in the Galapagos you are picked up at the airport by your guide.

IMPORTANT NOTE: All Galapagos itineraries described are subject to weather conditions at the time and may be altered by the Captain whose decision is final.

This afternoon we visit Lobos island, a small islet separated from San Cristobal by a narrow channel, forming a sheltered bay where sea lion pups play in tidal pools. Despite its small size, the island is surprisingly packed with wildlife, especially with "lobos marinos", the Spanish name for sea lions. Groups of sea lions will welcome you at the landing spot, but as you walk a few steps inland, male frigatebirds displaying their inflated red balloons will be perched on the bushes and trees. A small colony of blue footed boobies, which often nest right on the trail, will give you the opportunity to observe their famous courtship dance. This is a great snorkelling location as the water are usually calm and the sea lions often play with divers to show off their swimming skills. Sea turtles and rays are often seen resting in the sandy bottoms.

Highlights: Galapagos sea lions, marine Iguanas, magnificent & great frigatebirds, blue-footed Boobies, San Cristobal Lava Lizards.

 **Meals Included:** Lunch (if time depending on the flight) & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

new and top end Galapagos boat from an experienced operator. This Catamaran is state of the art with comfortable accommodations.

YOUR DETAILED DAY BY DAY ITINERARY

DAY 2 - WEDNESDAY

DATE TBC

GALAPAGOS

ESPANOLA ISLAND: GARDNER BAY & ISLET, OSBORN ISLET & SUAREZ POINT

We start today on Espanola Island. Here, Gardner beach is undoubtedly one of the most beautiful and interesting beaches to visit in the Galapagos. Its fine coral sand and turquoise water give it a totally tropical appearance, which contrasts with the presence of sea lions basking in the beach. You will have the opportunity to walk along the beach and learn about the biology of sea lions and other endemic species, such as the Española mockingbird, marine iguanas and Galapagos hawks. There are several great snorkelling places at Gardner bay. It is a fantastic site to swim with sea lions, reef sharks, rays and many species of fish.

This afternoon continue to Osborn Islet and Suarez Point. This rocky trail is one the most amazing nature walks you can do in the Galapagos islands. From the moment you set foot on the island and all the way along the trail the amount and diversity of fauna is truly amazing. Sea lions and marine iguanas will be the first ones welcoming us, followed by large colonies of sea birds, including Nazca and Blue-footed boobies, gulls and tropicbirds. At the end of the trail we will visit a colony of waved albatross (April to January), the largest bird in the islands and one of the most interesting because of its powerful flight and elaborate courtship. Waved albatross only nest at Española, so this is the only place where you will see them at close range.

Highlights: Coral sand beach, Galapagos hawks, Española mockingbirds, Darwin finches, Marine Iguanas, Sea lions, Waved Albatross, Galapagos hawks, Nazca & Blue-footed Boobies, Red-billed Tropicbirds, Swallow-tailed gulls, lava lizards, herons.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

YOUR DETAILED DAY BY DAY ITINERARY

DAY 3 - THURSDAY

DATE TBC

GALAPAGOS

FLOREANA : POST OFFICE BAY & CORMORANT POINT & DEVIL'S CROWN

Floreana is famous for the tales of German settlers and the baroness during the late 1920's and 30 's. Assassinations, disappearances and other unsolved mysteries are the ingredients of this fascinating story. Post office bay was often used by whalers to anchor their ships and go up to the highlands to get freshwater and tortoises. Most boats visiting the Galapagos had to come to this place sooner or later, so a system of mail was established more than 200 years ago: a barrel near the beach became the way to leave messages to other ships and also to the outside world. This mail system is still in use and will allow you to send postcards from the Galapagos.

Aside from a small beautiful beach and a lava tunnel, the area is great for dinghy tours to look for sea lions, green sea turtles, shorebirds, small sharks and, with some luck, Galapagos penguins. There is great snorkel from the beach, as you can see lots of sea turtles, rays, great diversity of fish and, if you are really lucky, Galapagos penguin,

This afternoon continue exploring this island. Punta Cormorant is located in the north of Floreana and it is known for its large coastal lagoon with American flamingoes, white-cheeked pintails, black-necked stilts and other shorebirds. There is a beautiful white sand beach which is an important nesting ground for green sea turtles where we can also see rays and reef sharks. In the last years, a small groups of blue footed boobies have started to breed right by the trail.

Highlights: Sea Lions, sea turtles, finches, shorebirds, marine iguanas, penguins, American flamingo, blue-footed booby, frigatebirds, tropicbirds, Galapagos shearwaters, sea lions, sea turtle nesting site, finches, coral-sand beach.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

new and top end Galapagos boat from an experienced operator. This Catamaran is state of the art with comfortable accommodations.

YOUR DETAILED DAY BY DAY ITINERARY

DAY 4 - FRIDAY

DATE TBC

GALAPAGOS

CRUISE TO SANTA FE ISLAND, PLAZAS SUR AND SOUTH PLAZA

Giant Prickly-pear cactus and barren lava rocks surround the landing spot at Santa Fe, located inside one of the most beautiful bays in the Galapagos. Turquoise water and white sand beaches make this location a perfect home for a large colony of sea lions which you will see basking in the sand. Inland, look down for endemic Santa Fe land iguanas, but also look up for Galapagos hawks, which often perch at the top of the cactus looking for prey. Darwin finches, Galapagos doves, mockingbirds and lava lizards are also common along the trail. After the hike, you will have the option to kayak or snorkel in the sheltered waters inside the bay, where you can swim with sea lion pups and reef sharks. Also look for sea turtles, rays and a large variety of tropical fish including large schools of surgeonfish and parrotfish.

Of the two twin islands, only South Plazas is allowed to be visited, while North plazas is kept exclusively for scientific research. This is a small islet, but it packs an impressive amount of wildlife. Right after you land you will see Galapagos land iguanas waiting under prickly-pear cactus feed on their fruits. A large colony of sea lions will give you the opportunity to see playful pups enjoying the tide pools, but also large grumpy males defending their territories. The trail will take you to a cliff where you can observe many sea birds, such as frigatebirds, red-billed tropicbirds, boobies, swallow-tailed gulls and pelicans. A reddish succulent vegetation with scattered cactus covers most of the islands like a carpet, giving this island a unique personality.

Highlights: Giant cactus, Santa Fe bay, Galapagos sea lions, Santa Fe land iguanas, Galapagos hawks, Galapagos doves, reef sharks, Galapagos land iguanas, tropicbirds, pelicans, boobies, Galapagos shearwaters, swallow-tailed gulls.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

new and top end Galapagos boat from an experienced operator. This Catamaran is state of the art with comfortable accommodations.

YOUR DETAILED DAY BY DAY ITINERARY

DAY 5 - SATURDAY

DATE TBC

 **END**

TO SANTA CRUZ ISLAND AND THE CHARLES DARWIN STATION TRANSFER TO BALTRA AIRPORT

The Charles Darwin Station is a nonprofit organization which has been working for decades together with the Galapagos National Park to preserve the biodiversity of these unique islands. During this visit you will learn about the projects that both institutions carry together to protect the native species and eradicate the invasive ones which are threatening the Galapagos environment. One of the most important and emblematic projects has been reproducing giant tortoises in captivity. The visit is mostly outdoors in a beautiful dry native forest with giant cactus and many other interesting native plants. It is also a fantastic place to find several endemic Darwin finches, as well as flycatchers and mockingbirds.

Highlights: Galapagos giant tortoise & land iguanas breeding program, Darwin finches, Galapagos mockingbirds, Galapagos flycatchers, yellow warblers.

After the visit, you will be transferred to Baltra Airport for your return flight to the mainland. On arrival a transfer to your hotel with the rest of the day free.

 **Meals Included:** Breakfast.

ITINERARY 6 DAY "B"

YOUR DETAILED DAY BY DAY ITINERARY

DAY 1 - SATURDAY

DATE TBC

GALAPAGOS

FLIGHT TO SAN CRISTOBAL ISLAND & VISIT THE HIGHLANDS

Transfer to the airport for a 2 hour 30 minute flight to Baltra Island in the Galapagos. Upon arrival in the Galapagos you are picked up at the airport by your guide.

IMPORTANT NOTE: All Galapagos itineraries described are subject to weather conditions at the time and may be altered by the Captain whose decision is final.

Either starting from Baltra or from Puerto Ayora, a bus will take you to the highlands stopping along the way at one of the reserves to visit the lush highland forests where you will look for Galapagos Giant tortoises in their natural environment. This is the best place in the Galapagos to see these gentle giants (reaching over 300 kg / 600 pounds!) casually grazing and resting in freshwater ponds. This is also home for a great diversity of birds rarely found at the lowlands, including finches (tree, woodpecker and vegetarian finches), flycatchers and several species of water birds. You will visit a lava tunnel (depend on the itinerary) and learn how these extraordinary formations were created by ancient volcanic eruptions.

Highlights: Giant tortoises, Darwin finches, barn owls, white-cheeked pintails, Galapagos flycatchers, Lava tunnels.

 **Meals Included:** Breakfast, Lunch (if time depending on the flight) & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

new and top end Galapagos boat from an experienced operator. This Catamaran is state of the art with comfortable accommodations.

[CLICK HERE TO LEARN MORE](#)

YOUR DETAILED DAY BY DAY ITINERARY

DAY 2 - SUNDAY

DATE TBC

GALAPAGOS

VISIT MORENO POINT & ELIZABETH BAY

This morning we visit Moreno Point, a magical place with extensive lava fields which look lifeless at first sight. Once inland, scattered brackish lagoons form oasis of life where you can find flamingoes, gallinules, ducks and herons. Along the shore we will look for penguins, marine iguanas, flightless cormorants, blue-footed boobies, sea lions, oystercatchers and other shore birds. We will snorkel to see sea turtles, cormorants and many species of fish. Look carefully in the long seaweeds and you might find a sea horse.

This afternoon we move on to Elizabeth Bay, a beautiful sheltered bay surrounded by large mangroves and barren lava fields. There is no trail here so you will take a dinghy tour to explore many channels, pools and coves teeming with life. This is one of the best locations in the islands to see Galapagos penguins, but don't expect to see thousands of them, as the entire population of the islands is only about 3.000 of them. Flightless cormorants also nest in the area and blue-footed boobies and pelicans often fish in these shallow and rich waters. Rays and sea turtles are also very abundant.

Highlights: Galapagos hawks, sea turtles, rays, Galapagos penguins, flightless cormorants, herons, American flamingoes, ducks, gallinules, penguins, cormorants, marine iguanas, sea lions, Galapagos mockingbirds, Darwin finches.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

Photos for guidance only & not necessarily the room booked

YOUR DETAILED DAY BY DAY ITINERARY

DAY 3 - MONDAY

DATE TBC

GALAPAGOS

CONTINUE TO URBINA BAY & TAGUS COVE

This place is known for the dramatic uplifting that happened here during the 1950's. A large portion of the coast was pushed up, exposing many hectares of previously submerged land. Look carefully along the trail and you will find small shells and corals, a proof that the area was underwater more than sixty years ago. The trail will give the opportunity to see land iguanas and, during certain seasons, giant tortoises. Galapagos hawks nest in the area and are often seen flying or perched on the trees. You can snorkel from the beach to see sea turtles, cormorants and penguins. Fish are also abundant in the area.

On to Tagus cove is one of the places Charles Darwin visited during his exploration of the Galapagos islands. A trail will take you through a dry Palo Santo forests where you can see Darwin finches and mockingbirds. You will get great views of Darwin's lake and the large volcanos of northern Isabela.

A boat tour along the shore will give you chances to see penguins, cormorants, marine iguanas and a very unique species: the Galapagos martin, a small endemic bird which is one of the most endangered species on the island. The nutrient-rich waters around Tagus Cove attracts a lot of sea turtles and a great diversity of fish, but also penguins, who feast on large schools of anchovies. It is common to see cormorants underwater as they chase fish through the reef.

Highlights: Galapagos hawks, land iguanas, Galapagos hawks, Galapagos mockingbirds, Darwin finches, flycatchers, marine iguanas, flightless cormorants, herons, penguins, sea turtles, sea stars.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

new and top end Galapagos boat from an experienced operator. This Catamaran is state of the art with comfortable accommodations.

[CLICK HERE TO LEARN MORE](#)

Photos for guidance only & not necessarily the room booked

DAY 4 - TUESDAY

DATE TBC

GALAPAGOS

STOP AT ESPINOZA POINT & ALBEMARLE POINT

Located at the base of an imposing volcano this site is one of the jewels of the Galapagos National Park. As soon as you disembark you will be surrounded by hundreds of marine iguanas, as this is the largest colony for the species. Sea lions bask in the beaches while their pups play in tide pools. Along the shore you will see flightless cormorants, which are restricted to the western areas of the archipelago. Surrounded by cold plankton-rich waters, Punta Espinosa is home for an array of species, including herons, pelicans, oystercatchers, sea turtles, shorebird and many more. Look up in the mangroves as Galapagos hawks often perch to look for their prey. The nutrient-rich waters around Punta Espinosa attracts great numbers and diversity of fish and sea turtles. Seaweeds are also abundant, making this place the best for seeing marine iguanas feeding underwater. Following a cormorant underwater as it chases fish through the reef is one on the most amazing snorkel experiences.

Albemarle Point is great for wildlife as well as an historical site. During WWII, the Americans built a radar base in order to detect the presence of Japanese war ships approaching the Galapagos. You can still see a few remains off the radar. The area is barren and surrounded by endless lava fields, but along the coast you will find some of the largest marine iguanas in the islands, Galapagos penguins, flightless cormorants and shorebirds. A couple of sheltered coves offer great opportunities to snorkel to look for cormorants, penguins and many species of fish.

Highlights: Galapagos hawks, marine iguanas, penguins, sea turtles, sea lions, herons, oystercatchers, shorebirds, sally light-foot crabs, flightless cormorants, penguins, sea turtles, shorebirds, sally light-foot crabs.

 **Meals Included:** Breakfast, Lunch & Dinner.

YOUR DETAILED DAY BY DAY ITINERARY

DAY 5 - WEDNESDAY

DATE TBC

GALAPAGOS

CRUISE EGAS PORT, ESPUMILLA BEACH & BUCCANEER COVE

Despite its name, there is no “port” at Puerto Egas, but you might see a few remains of the last attempts to colonize the island during the 60’s. The trail goes along the coastline which is rich in wildlife, with marine iguanas basking in the sun everywhere, Galapagos sea lions, herons, oystercatchers and many shorebirds. At the end of the trail an area called “the grottos” is home for a small colony of the endemic Galapagos fur seal, much more difficult to see at close range than its cousin. You can snorkel from the beach and explore an area of rocky bottoms which is excellent for fish, turtles and reef sharks. Often, sea lions are also present and are happy to interact with divers.

Espumilla is a beautiful 1km long beach with rusty-brown sand, located in the northern coast of Santiago. It is surrounded by large mangrove trees and a very interesting native dry forest, which is home to Galapagos hawks but also a great diversity of finches, mockingbirds and doves.

Buccaneer Cove gets its name because it was used by pirates during the XVII and XVIII centuries as a place to hide and get freshwater and tortoises. The place is very scenic with beautiful cliffs and interesting rock formations. Here you will take a dinghy to look at wildlife from the small boats. You can snorkel in a sheltered bay which is teeming with underwater wildlife including large schools of fish (angelfish, puffers, parrotfish, snappers, grunts...) but also reek sharks, sea lions and sea turtles.

Highlights: Galapagos sea lions, Galapagos fur seals, oystercatchers, marine & land iguanas, Galapagos hawks, herons, shorebirds, Darwin finches, Galapagos doves, Boobies, herons, Galapagos fur seals, swallow-tailed gulls, Galapagos hawks.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

YOUR DETAILED DAY BY DAY ITINERARY

DAY 6 - THURSDAY

DATE TBC

 **END**

DRAGON HILL & FLIGHT BACK TO THE MAINLAND

Located in the northern coast of Santa Cruz, Dragon hill gets its name from the land iguanas that inhabit this area, the only location in the whole island of Santa Cruz where you can see this large species of reptiles. Thanks to a very successful breeding program, this population of land iguanas, which was in the brink of extinction during the 70's and 80's, has rapidly recovered. There is also a small salt water lagoon where we can often see flamingoes, ducks, stilts, sandpipers and other shorebirds. After the hike, you will have the option to snorkel in shallow sheltered water where you will see large schools of surgeonfish and parrotfish, as well as reef sharks, rays and a large diversity of tropical fish.

Highlights: Galapagos land iguanas, Darwin finches, American flamingoes, white-cheeked pintails, Galapagos flycatchers, herons.

After the visit, you will be transferred to the airport for your return flight to the mainland. On arrival a transfer to your hotel with the rest of the day free.

 **Meals Included:** Breakfast.

ITINERARY 6 DAY "D"

YOUR DETAILED DAY BY DAY ITINERARY

DAY 1 - THURSDAY

DATE TBC

GALAPAGOS

FLIGHT TO SAN CRISTOBAL ISLAND & VISIT BLACK TURTLE COVE

Transfer to the airport for a 2 hour 30 minute flight to Baltra Island in the Galapagos. Upon arrival in the Galapagos you are picked up at the airport by your guide.

IMPORTANT NOTE: All Galapagos itineraries described are subject to weather conditions at the time and may be altered by the Captain whose decision is final.

This afternoon we visit Black Turtle Cove which gets its name from the abundance of green sea turtles, locally known as: "tortugas negras". There is no landing here so you will be doing a boat tour on the dinghies, exploring shallow channels and small coves surrounded by beautiful mangrove forests. Reef sharks, sea turtles and several species rays inhabit this beautiful area which is considered an important mating area for turtles and a nursery for several species of sharks. Herons, pelicans and boobies are also common here as they prey in schools of anchovies.

Highlights: White-tipped and black-tipped reef sharks, green sea turtles, rays, herons, blue-footed boobies, mangroves.

 **Meals Included:** Breakfast, Lunch (if time depending on the flight) & Dinner.

OVERNIGHT

YOUR DETAILED DAY BY DAY ITINERARY

DAY 2 - FRIDAY

DATE TBC

GALAPAGOS

EXPLORE RABIDA ISLAND & THE VOLCANIC CONE OF CHINESE HAT

Rábida is a small island famous for its reddish lava rocks (rich in iron) which gives it a unique look. The beach is also red and hosts a small colony of sea lions. There is a small salt water lagoon where we will see ducks and stilts and sometimes flamingoes. The trail will take you inland to get beautiful views of the beach and the lagoon. Look for Darwin finches, flycatchers and mockingbirds. In the cliffs along the coast you can find Nazca & blue-footed boobies, brown noddy, herons and the two species of sea lions: Galapagos and fur seals. You can snorkel from the beach and explore a sheltered rocky area, which is excellent for fish, sea lions and reef sharks. Look at the high diversity of small invertebrates attached to the vertical walls.

Cruise on to Chinese Hat this afternoon. This small islet is formed by a volcanic cone with a perfect symmetrical shape. It is separated from Santiago by a narrow channel forming one of the most beautiful bays in the islands. Blue-turquoise water and coral sand beaches surrounded by dark lava rocks gives this area a real tropical character, which makes even more surprising finding penguins resting in the rocks. The trail goes along the shore, taking you through a small colony of sea lions. When you swim in this place you will get mesmerized by the incredible colors of the fish and the sleek silhouette of reef sharks and, it is not uncommon to see a penguin darting through the water chasing anchovies like a small torpedo.

Highlights: Galapagos sea lions, Galapagos penguins, lava tubes, oystercatchers, Galapagos hawks, Red-sand beach, flycatchers, Darwin finches, Galapagos mockingbirds, ducks, flamingoes.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

YOUR DETAILED DAY BY DAY ITINERARY

DAY 3 - SATURDAY

DATE TBC

GALAPAGOS

VISIT SEYMOUR ISLAND & MOSQUERA

Seymour island is home for large colonies of both magnificent and great frigatebirds and you can see them displaying their red balloons to attract a female. Blue-footed boobies nest in the ground and perform their famous dance in the open areas, while swallow-tailed gulls perch on the cliff edges. Land iguanas are common inland while their marine cousins bask in the rocks by the sea, close to sea lions, which often like to body surf in the waves. This place is a really great snorkelling location, as it has tremendous diversity and amount of fish, but also sea lions, sharks, eels, turtles, rays and many more.

This afternoon we visit Mosquera, a mostly a barren sand bar with some rocky areas and scattered salt-resistant plants. You can walk along the beach and enjoy seeing playful sea lion pups surfing the waves and having a great time in the tide pools. Look for endemic lava gulls which are often seen flying over the beach in the search of food. If the waves are not too big you can snorkel at the northern tip of the island or at one of the small beaches in the sheltered side.

Highlights: Galapagos sea lions, lava gulls, oystercatchers, shorebirds, blue footed boobies, magnificent & great frigatebirds, land & marine iguanas, swallow-tailed gulls, shearwaters, Darwin finches.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

new and top end Galapagos boat from an experienced operator. This Catamaran is state of the art with comfortable accommodations.

YOUR DETAILED DAY BY DAY ITINERARY

DAY 4 - SUNDAY

DATE TBC

GALAPAGOS

EXPLORE SULLIVAN BAY & ICONIC BARTOLOME

This hike is a journey into understanding the birth of these volcanic islands. You will walk in a very well preserved flow of Pahoehoe lava, which will give you endless opportunities to see the delicate textures of these type of lavas which only appear in a few places throughout the world. At first sight the barren landscape looks completely deprived of life, but look carefully for pioneer plants, lava lizards and small birds. By the shore, you can find penguins, pelicans and oystercatchers. You will have the option to swim or snorkel from a coral sand beach or from the dinghies. The sea is teeming with life, including large schools of fish, Galapagos penguins, reef sharks, turtles and rays.

This afternoon we move on to Bartolome, one of the most iconic places in the Galapagos and one of the few where you can see penguins without going to the remote areas of western Isabela and Fernandina.

The hike to the top of the island is fantastic and will offer you incredible views of lunar landscapes with scattered volcanic cones. You will have the option to swim or snorkel from the beach. This area holds a well-deserved reputation of being one of the best snorkelling places in the Galapagos, not only because it's clear and calm water, but also because of the presence of penguins, which are relatively easy to find while snorkelling, along with an incredible diversity of fish, colourful invertebrates, sea lions, turtles, rays and reef sharks.

Highlights: Pahoehoe lava, Galapagos penguins, oystercatchers, Galapagos hawks, Galapagos penguins, volcanic landscapes, Pinnacle rock, blue- footed boobies, herons, sea lions, sharks.

 **Meals Included:** Breakfast, Lunch & Dinner.

OVERNIGHT

MC GALAXY SIRIUS

YOUR DETAILED DAY BY DAY ITINERARY

DAY 5 - MONDAY

DATE TBC

GALAPAGOS

EXPLORE EL BARRANCO & DARWIN BAY ON GENOVESA ISLAND

El Barranco is located in the southern part of Darwin Bay at Genovesa Island. The cliffs face the sea are made of very fragile fractured lava, making it the ideal place for storm petrel to build their colonies, which attracts an important population of short-eared owls preying of the nesting birds. Red footed and Nazca boobies are abundant along the trail. At the base of the cliffs you can see Galapagos fur seals resting in shaded areas, as well as several species of seabirds. You can snorkel along the cliffs where there are many fish and great chances of seeing sharks, rays and sea lions.

Genovesa is a favourite island for birdwatchers as it is home for very large colonies of seabirds. From the minute you set foot at the beach you will be amazed by the noise of hundreds of boobies, gulls and frigatebirds flying over your heads, perched in the bushes or nesting on the sandy terrain. The trail is an ultimate wildlife experience as there are animals everywhere; sea lions and marine iguanas near the sea; night herons, lava & swallow tailed gulls, Darwin finches, Galapagos doves, mockingbirds and many more species inland. The bay offers several places to snorkel; from deep waters along the cliffs across the bay, to shallow waters by the beach. In either case, there are many fish to see and great chances of seeing sharks, rays and sea lions.

Highlights: Nesting great frigatebirds, red footed & Nazca boobies, Galapagos sea lions, Galapagos fur seals, lava & swallow-tailed gulls, yellow-crown night herons, Genovesa ground finch, Genovesa cactus finch, Galapagos mockingbirds.

 **Meals Included:** Breakfast, Lunch & Dinner.

DAY 6 - TUESDAY

DATE TBC

 **END**

VISIT THE INTERPRETATION CENTRE & TRANSFER TO THE AIRPORT

On your last morning we visit the Interpretation Centre, located in the outskirts of Puerto Baquerizo, this centre is dedicated to the history of human presence in the Galapagos. Since the times of the early Spanish explorers to the present times, including illustrious visitors such as Charles Darwin, this permanent exhibition will take you through the dangers and struggles of the first settlers trying to survive the harsh Galapagos environment.

Highlights: Endemic plants, exhibition on human history.

After the visit, you will be transferred to the airport for your return flight to the mainland. On arrival a transfer to your hotel with the rest of the day free.

 **Meals Included:** Breakfast.
